Charleston papers of the 24th inst. AUSTRIA .-- An insurrection took place in Milan on the 6th inst., which lasted until the 9th. The Austrians say that the revolt was quelled with a loss only of five of their soldiers. The insurgents, on the contrary, affirm that 300 Austrians were killed, as they attacked the barracks and massacreed the garrison. Proclamations from Kossuth and Mazzini. were posted in the city. The latter has gone to Switzerland to watch events. A rising is looked for elsewhere. Austria and France are sending troops to Lombardy and Rome. The latest advices state that order had been restored. Many arrests had taken place, and three persons had been shot. The Milanese generally took no part in the insurrection. The commercial treaty between Austria and Prussia has been ratified.

Journal of Dr. O'Fallon. The annexed extracts, from the Journal of Dr. James O'Fallon, of the Revolution, was handed to us by Dr. Murphy, of this County, who received them from Hon. John B. It may perhaps be valuable as throwing some additional light upon the revolutionary history of this section of the State, and is therefore well worthy of preservation It will be seen that it is simply a series of slight

Prices of Labor. The influx of gold has imparted activity to every species of productive industry, and labor of all descriptions gets a better price. In relation to labor at the South, we take the following from the Wilmington (N. C.) Journal:

" 'HIGH PRICE OF NEGROES .- We extract the following from the Lancaster Ledger of the 5th inst.: tate of the late S. Beckham, on the 22d of last month, and were somewhat astonished at the high prices paid for ne-

" 'A negro woman we had occasion to purchase the other day, cost us \$1000. 'We learn from the Winsboro' Register that on Monday the 31st inst., a large sale of negroes was made by the Commissioner of Equity for Fairchild district, principally the property of Jacob Gibson, deceased. The negroes were aly tolerably likely, and averaged about \$620 each The sales were made on a credit of 12 months. In one instance a likely field hand sold for the round sum of sixteen hundred and thirty dollars. The purchases, however, were principally made by the distributees of the Estate .- Charleston

ison with prices paid at this place. We have been furnished, at our request, with a list of a number of negroes hired and sold in this town during the last fifteen days, by Mr. Cronly, anctioneer; and we notice amongst those hired out at public vendue, a man, aged 45 years, that brought \$152; another, age not giren, \$153; and a woman, no age stated. \$78-all rice field hands; a boy, aged 14, \$147; another hoy, aged 10 years, \$41; a man \$166; a woman and two advanced 2d, and red 1d, per 70 los. since Tuesday. Flour ported Cigars girl children, (rice field hands,) hired for 130. The same was held 6d a 1s higher, Baltimore, Philadelphia and Ohio and retail by woman with three children brought \$78 last year, and her oldest child hired for \$81 the present year ; a man for \$161, and one for \$183.

"The above will show the prices paid for negroes for 12 months, at public biring in this town; as a matter of course. there were others that brought less, but we have mentioned the above merely to contrast with prices paid South of us .-(Dr. O'Fallon,) and, as a genuine Irishman, and an We will now give the sales of a few that have been effected from the 1st of January. We note as follows:-Women, aged from 28 to 45 years, brought from \$665 to \$895; a family, (mother and three children, very ordinary, but young,) \$1,525; a man, aged 45, bis wife and two children, \$1,810 dingly set out for Port Glasgow and Greenock, where a man, no age given, \$1,118; and a woman and four children The above sales were either for cash, or ninety days credit, interest added, with approved notes payable at Bank. These sales and hirings were made at public auction; others were hired privately at prices ranging from \$150 to \$300, as

to quality, and business to be pursued. It is not likely that negroes will be lower, especially while cotton and naval stores keep up to anything in the neighborhood of present prices, and there is not much pros peet of a material decline, for some time, at least. again, the influx of gold from California, even should both cotton and naval stores decline in price, will have a powerful tendency towards keeping labor up to the present mark."
